Strongest Design

Sypha transfer chair has a stable & robust design and construction. It can hold up to 200 kg. patient. It is environmentally friendly, durable and built to last. With Sypha you not only get a strong transfer chair but also a estetically nice design placed in the entrance of your facility.

High Level of Standards

Sypha has most of the optional accessories as standards. These are fixed 4 hook infusion pole, urinal hanger both sides. Besides we have optional accessories like theft protection via coin system, O₂ Cylinder attachment, etc.

Footrest

Sypha has automatically folding footrest when not in use. By this way and by lifting armrest it has easy side entry and exit for optimum safety.

Brake System

Sypha brake mechanism are unique and made from stainless steel pipe without connection points. This mechanism provide more safety and long life use.

Advertisement Area

In the plate holder mounted as standard in the back of the chair, you can put the hospital name, clinic name or even your advertisement

Low Replacement Cost

Sypha has nest able design and promotes chair return. It can turn in its own circumstances. It can virtually eliminates patient injury.
